Edit day.

This is the **same list** as EDIT-DAY.md. One cut per page for Turtle Soup. Big in and out times. Tick in your head, or mark up in Markup.

Turtle Soup is out **Friday 21 August**. Performance is the pillar. One lyric, one post. Talking-heads support it.

Sit like this

1. Named files, not the 3h splice.
2. Proxies. Crop 9:16. Face in frame one.
3. CTA is **out now**. Follow on talking-heads.
4. Play audio before any overlay.
5. Unreleased hook: 15 seconds, then cut.

Do not use the Moka Only wav as if it is you rapping. Do not cut from the canvas, the mine, or v2.

Subtitle colour

Fill **RGB 255, 166, 46** (#FFA62E). Stroke 2 to 3 px **RGB 28, 16, 6**. No drop shadow. Short titles. The sung line only.

255 166 46 subtitle fill

Three pillars

Performance you playing. Wall take.
Fly on the wall two of you working.
