U GOT ME LYRICS – words and melody by Darragh Hoare

Who built this ceiling
Cause I can't get away get away no
From this suffocating feeling
She told me son you know
No matter how high you grow
There's always going to be someone trying to bring you down
She's going to bring you down

Now I try not to lie
And tell myself
That I wouldn't want you anyway
But the truth seems to follow me round
Like a cloud on a rainy day
Attempt to resist that fire and fight
But she gives me desire to go all night

And she wants to get high with me
And she wants to spend the night with me
And she wants to get high with me
Will you please spend a night with me?

CHORUS

Yeah, I see you coming
and don't think I'm gon' be running
imagination is humming
You got me
You got me
