Reach out lyrics – Music by Blanka, Killian, Pablo. Lyrics and melody by Darragh

CHORUS
Reach out and find the line
I'm never gonna leave it too much time
Because I'm not the kind of man
to leave you right there on your own to stand
Reach out and find the line
I'm never going to leave it too much time
Because I'm not that kind of man's
to leave you out there on your own to stand

The money's coming slow
No friends on the phone
You know I'll always hold you close
But how could I have missed it
Now the words are getting twisted
You know I'm going to miss you when you're gone

In the quiet of the night
when the stars are shining bright
I hear a whisper calling me to find my way
through the echoes of my mind
in the shadows left behind
A voice is guiding telling me to seize the day

CHORUS

you came saw shot me dead
with the words you never said
now I'm dancing in the rain
through the puddles and the pain
so follow the leader where the heart goes
in the rhythm of the night
only heaven knows
only heaven knows
