No wrong – Music by Blanka, Pablo, Killian. Lyrics and melody by Darragh and Lukas Derriez

CHORUS
I don't wanna do no wrong
Been standing here way too long
This hurt it's way too strong
But I don't want to do no wrong

Well I stayed up late again
Couldn’t sleep yeah it happens
I saw the text come in
I didn't look my head was spinning
don't need fixing
just need some space
I've still got things
I have to face
I'm not a victim
But I'm not a saint
I just want to drop this weight
You spoke so loud I learned fast
no raised hands what's past is past
you shut down I picked it up
and now I pass it off as tough

CHORUS
I don't wanna do no wrong
Been standing here way too long
This hurt it's way too strong
But I don't want to do no wrong

Ooh that pain is dragging me down so I told ya
I cant see no light at the end of the road
Well I guess I should be praying a sign will be sent
And that pride of mine will stay out of the plan

CHORUS
