SHOOT

28 July 2026 · Swords then Calderwood

FOR

Darragh, on the phone

CHANNELS

Instagram + TikTok. LinkedIn is out.

DATE

25 August 2026

THE TRICK

Two spines. Then steal them.

Do not make 28 picture edits. Make two. Every extra film is a duplicate timeline with a new voice and a different first frame. For the audience that is a new post.

SPINE A · SWORDS**Oak, island, Gareth's house**

P1001475 to 1482. About 90 seconds of selects.
Covers the sold VO, every Gareth short, and the Swords VO slices.

SPINE B · CALDERWOOD**Green, terracotta, the vault**

P1001483 to 1498. Covers the sold VO, lighting, Dekton, doors, drawer, floor, stained glass.

RULE FOR THIS JOB

Do not force talking-head. Hero audio is the VOs she wrote, and Gareth. Picture is the rooms. Keep her when she is confident. Never when she is interrupted, coached, or upset.

One file, two apps

Every master is 9:16, 1080×1920, 25fps, burned captions, mute-proof first line. Post the same file to Instagram Reels and TikTok. No 4:5. No LinkedIn recut. TikTok likes the 12 to 25 second harvest. Instagram can take the 60 second sold films and the shorts.

First frame of a harvest cut must not match the sold film it was stolen from. Change the open shot. Stagger posts by about ten days if two films share a spine.

FLOOR, LANDED, UPSIDE

Proposal was two films.

SOLD FLOOR LANDED TALK-THROUGHS UPSIDE CUTS

Sold: one Swords talk-through, one Calderwood talk-through, stills of each kitchen. Portraits still go in the stills set. They are not a LinkedIn job.

Upside is one-off, because delivery is late. It creates no continuing obligation. Push her to post the lot. Give her a sequence so she is not dumping.

	WHAT	N
Sold	S01 Swords VO · C01 Calderwood VO take 4	2
Gareth	Face allowed. Ten cuts from one interview.	10
Swords slices	Same VO, new first frame, 12 to 18s	4
Calderwood slices	VO + confident first-take audio under B-roll	10
Visual only	Drawer, floor, hood, stained glass. Music, one line of text	2 in the 10
Stills	Two carousels + graded stills from B-roll frames	sets

HOLD, DO NOT SKIP THE HARVEST

C11 “hold your hand” and G12 two-hander wait on her watching herself. Everything else in the 26 is cuttable tonight. Gareth’s face waits on his yes before it goes live, not before you cut.

ORDER OF WORK

Build the spines first.

1. FCP event First shoot. New project 1080×1920, 25fps, Spatial Conform Fill. Crop 9:16 off the 4K. Pan on 1480, 1490, 1498.
2. Picture-lock Spine A (Swords) and Spine B (Calderwood). About 90s of selects each. That is the whole night's picture work.
3. Duplicate Spine A. Lay S01, the full Swords VO. Burn captions. Rearrange to open on "the extension wasn't the answer" if it hits harder.
4. Duplicate Spine B. Lay C01, Calderwood take 4. Skip slates. Burn captions.
5. Harvest. Duplicate the matching spine. Drop the next audio. Change the first frame. Export. Repeat. G02 then G01 then G03 G05 S02 S03 C02 C03 C04 C06 G06 G07 C05 G04 G08 G10 C07 C09 C10.
6. Stills. Rotate the portrait-orientation JPGs. Pull extra frames from B-roll. 1504 is the quiet portrait. Not 1505.
7. Export every master 9:16. Same file for IG and TikTok. Stop. Telegram me with the four flags if they are still open.

DO NOT START HERE

Do not open the night by salvaging her to-camera first takes. Those gold lines already live as harvest audio under Spine B.

CLIENT FLAGS

Cut anyway. Ask before it ships.

- **Gareth on her channels.** Named, in his home, recommending her. Cut G01 to G12 now. Nothing with his face goes live until she confirms he is happy for Instagram and TikTok.
- **Over 100 grand.** It is in the VO she wrote. Duplicate S01 with the figure bladed out. Post neither version of that clause until she answers. Gareth never needs to say the number. "Fraction of the cost" is enough.
- **JDM Woodworks.** She refused the spoken promo. Honour it. The drawer close-up P1001487 is a craft shot. Ask if the picture can appear with no caption. Do not tag JDM unless she asks.
- **Pendant brand, Calderwood.** Transcript: Yumidge / Yumitch. Circular discs under the vault. Do not burn a name. Call them pendants until she spells it.
- **Four months.** Usable. Gareth landed it himself after a messy prompt. Cut the prompt. Keep his line on a short if you want it.

TELEGRAM THESE FOUR BACK

Gareth yes or no. 100 grand yes or no. JDM drawer picture yes or no. Pendant spelling. Everything else is decided.

SWORDS · MORNING · TEAL TOP

Oak, island, Gareth.

Linear oak-and-black pendant. Island hob toward the garden. Dee in teal. Gareth in sage. A-roll triangles in FCP are 1470, 1472, 1473, 1474, 1479. Do not live on 1470 or 1472 as picture.

CLIP	DUR	USE ON THE SPINE

1479	5:58	Two-hander. G12 only. Cover her if she looks tight.

Mute A-roll 1470 and 1472. Audio only, under this spine, if you steal a calm line. Never a presenter hold from those clips.

ON-SCREEN PLUS IG / TIKTOK CAPTION

Her words. Not ours.

No invented quotes. Light tags. Same caption on both apps. First comment can name Dekton or oak.

S01 On-screen: The extension wasn't the answer

Gareth came to me for a kitchen extension. The existing room had enough in it. It needed a proper plan.

C01 On-screen: Back with the same clients, twenty years on

A kitchen for clients we first worked with twenty years ago. Dekton Umbra, dark green wood-grain, lighting built into the vault.

G02 On-screen: From the moment I met D

Gareth, after the kitchen: sitting room, living room, wardrobes upstairs. He did not want to work with anyone else.

G01 On-screen: I thought I needed an extension

Gareth spent a year on catalogues and showrooms. Then a friend said to call me. We used the room he already had.

G03 On-screen: 3 options, not 80

He spent a year looking. What he needed was three options, not eighty.

C03 On-screen: Lighting for the vault, planned at the start

Concealed lighting on dimmers, up through the beams, back down into the room. Planned before the plaster went on.
