**Look out below – words and melody by Darragh Hoare**

**CHORUS**
Look out below
You better not show your worth
Snakes in the grass only want to hurt you
And I wish I could say that winter is not cold
And it's easy to make it on your own

The world does not conspire against you when you wake
Consider this, the thoughts you have alone might be real or fake
Don't forget where you're from bang the drum of where you are
With that in mind if you want to go so far I say

**CHORUS**
Lookout below
You better not show your worth
Snakes in the grass only want to hurt you
And I wish I could say the winter is not cold
And it's easy to make it on your own

To make it on your own
You gotta know whose minds on point
You gotta work and grind to put down the joint Keep it
Heavy physical playful whimsical
Walk through the mother fuckers that make it difficult
I better look out below
I stay clunky and my mind flows
Vultures and crows smell the weak and the old

**CHORUS**
Lookout below
You better not show your worth
Snakes in the grass only want to hurt you
And I wish I could say the winter is not cold
And it's easy to make it on your own

**CHORUS**
